

6th Annual Pollution Prevention Conference and Trade Show Speakers October 20, 2003

Mark Balazs is a Storm Water Coordinator with the Indiana Department of Environmental Management (IDEM). He is responsible for overseeing Indiana's storm water rules, which address run-off from construction sites, industrial facilities, and municipal/institutional activities. Mark has over 11 years of work experience dealing with environmental pollution prevention, assessment and compliance, that has included stints as an education specialist, emergency responder, and wastewater inspector. Mark earned a Bachelor of Science degree in Environmental Health Science from Purdue University.

Rick Bauer is a Process Engineer for the Indiana Clean Manufacturing Technology and Safe Materials Institute (CMTI) at Purdue University. He is responsible for assisting Indiana manufacturers in regulatory compliance issues, as well as helping them reduce air emissions and solid waste generation through clean manufacturing strategies. Rick is an ISO 14000 Lead Auditor and has acted as both Auditor and Lead Auditor for numerous companies throughout the state of Indiana. Rick earned a Bachelor of Technology degree in Industrial Technology and a Master of Science degree in Environmental Science from the University of Northern Iowa.

Dennis Davis is currently the Environmental Health & Safety officer for Kimball Electronics. His 34 years of experience in the environmental field also include employment with GM, Star Cutter Corp., United Technology, Philips Electronics, and VDO North America; where he worked with foundries, tool & die shops, and construction stamping and electronics assembly. He attended Saginaw Valley College and University of Dayton. He is an OSHA 10 / 30 hr Trainer, CPR / First Aid instructor, ISO 14001 Trainer and Auditor, Member of the Hoosier Safety Council, National Safety Council, Auburn Chamber of Commerce NFPA and American Legion. He received Outstanding Company of the Community, Green Partner Award from Honda, and 2002 Honorable Mention for the Governors Award for Environmental Excellence.

Janet Haff has been a part of the United States Environmental Protection Agency for the past 16 years. Ms. Haff is the Region 5 Waste Minimization Coordinator in the Resource Conservation and Recovery Act (RCRA) Waste Management Branch. She is also a member of the Metro East Geographic Initiative area in East St. Louis, Illinois, also known as the Gateway Team. In her capacity as the Waste Minimization Coordinator and as a Gateway team member, Ms. Haff has been instrumental in conducting several school mercury collection programs and in developing Good Neighbor agreements with facilities in the East St. Louis area. Her responsibilities also include grants management and waste minimization assessments and previously was a RCRA inspector for 7 years. She recently worked on the expansion of the National Waste Minimization Partnership program for Region 5. Ms. Haff has received numerous awards including a Gold Medal for her work on lead issues in East St. Louis, Illinois. She was also nominated for the Federal Employee of the Year, she received a Bronze

Medal for the development of a Superfund Responsible Party Tracking system and recognition for participating in the Environmental Leadership Program. Janet has a B.S. in Environmental Science and has completed the majority of her course requirements towards her M.A. in Public Policy. She enjoys spending time with her husband and young daughter as well as traveling.

Patrick Henthorn graduated from Tri-State University (Angola, Indiana) in 1996 with a Bachelor of Science degree in chemical engineering. He worked 3 years as a field engineer for an industrial treatment company before joining the City of South Bend as the engineer for the Division of Environmental Services. He currently holds an Indiana Class III wastewater operators certification.

Lori Kaplan was appointed commissioner of the Indiana Department of Environmental Management (IDEM) on April 1, 1999, by Governor Frank O'Bannon. In her capacity as Commissioner she also serves on numerous boards and commissions including but not limited to the Indiana Environmental Quality Service Council, the Indiana Counter Terrorism & Security Council, the Indiana Natural Resources Commission, the Great Lakes Commission, and the Environmental Council of States.

Ms. Kaplan chairs the Water Committee of the Environmental Council of States. Additionally, Ms. Kaplan has been a member of the Environmental Public Health Tracking Network of the Center for Disease Control and Prevention, and has been appointed by EPA Administrator Christine Todd Whitman to the Executive Council of the National Environmental Justice Advisory Council, in which she is a member of the Health and Research Subcommittee.

Prior to her appointment at IDEM, Ms. Kaplan was with the Indiana Department of Natural Resources (DNR). Kaplan joined DNR in 1993 as Chief Legal Counsel. In 1997 she was named Deputy Director of the Bureau of Water and Resource Regulation. The Bureau was comprised of the Divisions of Water, Fish & Wildlife, Soil Conservation, Entomology & Plant Pathology, and Outdoor Recreation.

Before joining state government, Kaplan was in the private practice of law in Indianapolis. She received her B.S. degree from the University of Illinois at Champaign-Urbana, and her J.D. from Indiana University School of Law - Indianapolis.

Janet McCabe has been Assistant Commissioner for the Office of Air Management of the Indiana Department of Environmental Management since September 1998. From 1993 to September 1998 she was Chief of the Air Programs Branch. From August 1989 until May 1993, Ms. McCabe was Assistant Secretary for Environmental Impact Review in the state of Massachusetts, responsible for implementing the Massachusetts statute requiring in depth environmental impact review of all major public and private development projects. From September 1984 to August 1989 she was an Assistant Attorney General for the Commonwealth of Massachusetts, in the Environmental Protection Division, and was responsible for civil enforcement of the state's environmental laws and regulations.

Tim W. McDaniel is the Environmental, Health and Safety Manager at International Truck and Engine Corporation's Springfield Operations. In this capacity he manages all EPA and OSHA regulatory affairs, fire protection and plant security. With International since 1989, the plant has been recognized for pollution prevention and safety, including two Ohio Governor's Awards, the PBT Cup, and LMOP Energy Ally of the Year. Tim serves on the Clark County Solid Waste Policy Committee and the Springfield Combined Sewer Overflow Public Advisory Committee. He is chairman of the Truck Manufacturers' Association Environmental Management Committee and past chairman of the Ohio Manufacturers' Association Environmental Committee. He is active in his community, serving in his church, the United Way and 4H clubs. Tim received masters degrees in environmental science and in biology from Indiana University and a B.S. in environmental resources from Eastern Kentucky University. Tim has authored numerous publications on EHS subjects including pollution prevention, wastewater treatment, regional water quality patterns, air pollution control, environmental auditing, safety and ergonomics.

Cam Metcalf currently serves as the Executive Director for the Kentucky Pollution Prevention Center at the University of Louisville. Cam has industrial waste and quality audit experience, extensive pollution prevention training experience, and 20 years university-based pollution prevention program management experience. He has served on the Board of Directors for: the National Pollution Prevention Roundtable, the Kentuckiana Certified Hazardous Materials Managers Chapter (KCHMM), the Louisville Advanced Technology Council, Kentucky International Environmental Trade Initiative and the Kentucky Greenhouse Gas Project Technical Advisory Committee. Cam earned an Master of Science degree in Civil Engineering & Environmental Science from the University of Oklahoma, and a Bachelor of Science degree in zoology from Oklahoma State University.

Brian Olsen was a Pollution Prevention Intern for the Illinois Environmental Protection Agency (IEPA), while a graduate student at Illinois Institute of Technology where he performed four separate twelve-week internships for local businesses. He then joined a pilot project funded by *USEPA* and *IEPA*, which focused on disseminating pollution prevention and energy efficiency methods and activities under the auspices of a small business assistance center. As an Environmental Engineer with *Sargent & Lundy, LLC*, Brian was involved with air, land and water permitting for many of S & L's clients. His responsibilities also involved pollution and accident prevention plan preparation for several clients and performed regulatory compliance (due diligence) reviews for existing power plants. Brian returned to the public sector to pursue an opportunity with DOE in March of 2000. As the Industrial program manager for the Chicago Regional Office, Brian works to develop industrial/commercial energy efficiency gains and technology implementation within the 8 states that comprise Chicago Region.

Gary Ross is the Manager of Environmental Affairs for Toyota Motor Manufacturing for North America, Inc. He graduated from the University of Louisville Speed Scientific School with a Bachelor of Science degree in Chemical Engineering and earned a Master of Science degree in Manufacturing Management from Eastern Kentucky University. He has 16 years of experience in the environmental arena and under his leadership Toyota has received numerous awards for environmental excellence at both the state and national level.

Kathryn Watson is Chief of the Air Programs Branch for the Office of Air Quality, Indiana Department of Environmental Management (IDEM), where she directs the policy, planning, rulemaking, and technical support efforts of the air program. Ms. Watson is an attorney with twenty-one years of experience in government and the private sector. She has represented the City of Indianapolis, the Indiana Department of Natural Resources, IDEM, and private clients in environmental, contractual, and real estate issues. She has been a staff attorney for Simon Property Group, Indianapolis, and a partner in her own law firm. Previously at IDEM, she was the first director of the multi-media Office of Enforcement. Ms. Watson graduated *cum laude* from the Indiana University School of Law - Bloomington in 1982, and received her B.A. from Indiana University in 1979.

William A. White earned his master's degree in executive development for public service from Ball State University and a bachelor of arts degree in human relations/social work from Missouri Valley College. He is currently the Director of Administrative Services for the Operational Services Commission for the Indiana Department of Health. Prior to this he has held various administrative positions with a number of agencies and organizations such as the Indiana Soldiers' and Sailor's Children's Home, the Bureau of Family Health Services, and the Maternal and Child Health Division where he has overseen operations and program development.

Iris Wilhoit is the Environmental Manager for Valeo Engine Cooling in Greensburg. She holds an Indiana Class D Wastewater Operator Certification and a Michigan Wastewater Operator Certification. Her 25 years of experience as an environmental professional includes manufacturing, industrial wastewater treatment including electroplating operations, and municipal wastewater treatment.

Gavin Williams is the Manager of the Building Energy Efficiency Program (Energy and Recycling Office, Indiana Department of Commerce) and works on a range of programs, including:

- The Department of Energy's Rebuild America program that has provided funds to Indiana communities to carry out energy audits and set up loan programs to fund upgrades to buildings;
- The Public Facility Energy Efficiency Program (PFEEP) which provides zero-interest loans of up to \$100,000 to public schools, public libraries and political subdivisions (i.e. local government agencies) to identify and/or implement

- energy-efficient improvements in their existing facilities and design energy-efficient measures in their new facilities;
- The Energy Star Small Business Audit Program which provides free energy audits to businesses that are 100,000 square feet or smaller;
 - Also working on Energy building codes and standards, state government energy efficiency programs and guaranteed energy savings contracts.

Before serving as the Building Energy Efficiency Program Manager, Gavin worked for two years as Program Coordinator for the Recycling Market Development Program (also in the Energy and Recycling Office) promoting the manufacturing and purchasing of recycled-content products in Indiana.
